Major Perez per your request I am leaving you a letter in regards to an incident that took place on October 18, 2020.

On the evening of October 18, 2020 at approximately 1700hrs I meet up with the Broad street detail and spoke briefly in regards to the large call volume for reports of hundreds of illegal mopeds, motorcycles, dirt bikes and ATVs operating recklessly throughout the City, causing serious safety concerns and fear amongst legal motorists on the roadways. It was advised that safety and caution should be of the utmost importance when coming into contact with any of these illegal vehicles during your shift.
